

INDEX, VOLUME 96

A

- Accuracy of techniques for forecasting typhoon movement. 649.
- ADEM, JULIAN:
and W. J. Jacob. One-year experiment in numerical prediction of monthly mean temperature in the atmosphere-ocean-continent system. 714.
- Advective process, numerical modeling. 1.
- Agriculture, income, and climate. 39.
- Aircraft reports of cirriform clouds. 809.
- ANDERSON, RALPH K.:
Picture of the month. 260.
- ANDREWS, JAMES F.:
Weather and circulation of October 1967—Continued cool east of Rockies and warm in Far West. 56.
Weather and circulation of April 1968—Cool in West and warm in East. 472.
Weather and circulation of August 1968—Sharp contrasts in temperature and an unusually strong summer index cycle. 826.
- ANGELL, J. K.:
and J. Korshover. Additional evidence for quasi-biennial variations in tropospheric parameters. 778.
- Angular momentum:
hurricane Hilda 1964. 617.
large-scale eddy flux. 854.
prediction with primitive equation model. 477.
- ANTHES, RICHARD A.:
and D. R. Johnson. Generation of available potential energy in hurricane Hilda 1964. 291.
- Application of diagnostic numerical model to tropical atmosphere. 218.
- ARAKAWA, AKIO:
and R. Sadourny and Y. Mintz. Integration of nondivergent barotropic vorticity equation with icosahedral-hexagonal grid for sphere. 351.
- Atlantic hurricane season 1967. 242.
- Atlantic tropical disturbances 1967. 251.
- Atmosphere:
free and forced oscillations. 133.
circulation, role of tropical maritime continent. 365.
ocean-continent system and monthly mean temperature. 714.
water vapor transport and water balance of North America. 720.
- Australian barometric tides. 601.

B

- Barotropic instability in terms of momentum convergence. 32.
- BATTEN, E. S.:
and R. S. Lindzen and J.-W. Kim. Oscillations in atmospheres with tops. 133.
- BAUMHEFNER, DAVID P.:
Application of diagnostic numerical model to tropical atmosphere. 218.
- BAYNTON, HAROLD W.:
Stability inferences from precision rawins. 47.
- BELMONT, A. D.:
and D. G. Dartt. Variation with longitude of the quasi-biennial oscillation. 767.

- Bias by anemometer starting speeds in wind roses. 325.
- Biennial oscillation, possible influence of Kelvin waves on quasi-biennial oscillation. 386.
- BLEICK, W. E.:
and G. J. Haltiner and F. D. Faulkner. Proposed method for ship routing using long range weather forecasts. 319.
- BONNER, WILLIAM D.:
Climatology of low level jet. 833.
- Boundary layer, numerical study, diurnal variation of wind. 269.
- BRADLEY, JAMES H. S.:
Some practical aspects of overrelaxation in diagnostic and forecast calculations. 802.
- BRIGGS, GARY A.:
Weather note—Hailstones, starfish, and daggers—Spiked hail falls in Oak Ridge, Tenn. 744.
- BRUNK, IVAN W.:
Comments on "Comparison of climate of eastern U.S. during 1830's with current normals." 656.

C

- CHASE, PETER P.:
and B. I. Miller and E. C. Hill. Revised technique for forecasting hurricane movement by statistical methods. 540.
- Circulation patterns and heavy snowfall over western U.S. 851.
- CLARK, JAMES R.:
and M. B. Danard and M. M. Holl. Fields by correlation assembly—Numerical analysis technique. 141.
- Climate:
eastern U.S. in 1830's and current normals. 73, 656.
effect on agriculture and income. 39.
- Climatology of low level jet. 833.
- Cloudiness:
aircraft reports of cirriform clouds. 809.
California to Honolulu cirriform. 809.
Canada and northeastern U.S. 574.
Catalina, Calif., Eddy. 742.
central and eastern U.S. 188.
convective cloud systems. 824.
eastern U.S. 328.
hurricane Hilda 1964. 701.
Idaho, Wyoming, Montana. 660.
lightning strikes to aircraft. 807.
locating points on surface ridgelines. 315.
mean position of intertropical convergence zone. 174.
merger of tropical and extratropical systems. 889.
mesoscale motions in ocean and island stratus. 304.
Pacific Ocean cellular cumulus. 470.
positioning jet streams. 54.
snow-covered northeastern U.S. 260.
typhoon Marie 1966. 106.
U.S. 397.
- COBB, WILLIAM E.:
and F. J. Holitz. Note on lightning strikes to aircraft. 807.
- Combining two probabilities by scatter diagram. 887.
- Comparative test of wind laws for numerical weather prediction. 277.
- CONNER, W. C.:
and D. A. Goudeau. Storm surge over Mississippi River Delta accompanying hurricane Betsy 1965. 118.

Contents, Volume 96. 899.

Convolution of gamma distributions. 883.

Correction notices: 62, 124, 404, 469, 722, 797, 901.
